Idaho Legislature – My Bill Tracker

Overview

My Bill Tracker is a real-time web-based bill tracking system that allows users to follow and track legislation throughout the legislative bill process. By maintaining lists of legislation, users are able to follow the progress of the legislation they are interested in without having to sort or search through an entire years' worth of work from the legislature. This web-based application is available at no charge to its users.

By creating multiple lists, users are able to categorize the legislation they wish to track. For example, grouping all Taxation related bills on one list, and all Education related legislation on another. Legislation can also be added to multiple lists, moved from one list to another, or copied from one list to another. For example the same bill might be included in lists regarding Taxation, Transportation, and Agriculture.

You must have a valid email account to sign-up / login to use the Idaho Legislature Bill Tracker program. My Bill Tracker program will allow you to create and maintain personalized lists of legislation to track, you can choose to be notified by email when a new action occurs on any of the bills on your list(s), add your own notes to bills on your lists, and print your list(s). The notes you enter regarding a particular piece of legislation are personal to you, and are not visible to other users.

Note: E-mail notifications are sent once per day and only if action is taken on tracked bills and/or resolutions, proclamations, and memorials. If no action is taken, e-mail notification will not be sent.
